SUBJECT: TAJIKISTAN RESPONSE: 2010 NTE CHAPTER ON THE ARAB LEAGUE
TRADE BOYCOTT OF ISRAEL

REF: STATE 118797

¶1. (U) The Arab League Trade Boycott of Israel does not appear to have any impact on U.S. firms or products in Tajikistan (reftel). Very few U.S. products are on the market in Tajikistan, but this is due to the distance and small size of the market. The government of Tajikistan has not made any public calls to support the Arab League trade boycott of Israel.

On the contrary the government has made efforts to court Israeli investment, although to post's knowledge there are not yet any major business ties between the two countries.
